Re: United States of America v Blaise Caroleo, 17 CR 177 (ENV)

Dear Judge Vitaliano,

I write concerning the sentencing date for my client Blaise Caroleo, presently scheduled for December 8, 2021. Last night I received an e-mail from Mr. Caroleo asking that I contact the court and request a postponement of the sentencing date. Mr. Caroleo advised me that he injured his hip and is in serious pain. He states that if he is put on a bus in leg irons and goes up and down on the bus steps, the pain will be severe. Because of this, and also a second hip injury, he has a hard time walking.

I contacted AUSA Erin Argo to see if the government would consent to this application. Ms. Argo's response is that the government opposes any delay of the sentencing proceedings.

Respectfully yours,

*Marion Seltzer*
